

FUJIFILM DISPLAY TRANSPARENCY FILM

Product Description:

Fujifilm Display Transparency Film is an 8 mil polyester backlit film for use with pigment-based aqueous inks. The front print film is ideal for indoor or outdoor light boxes and may be suitable for some reflective applications. Available in 24", 36" & 42" rolls, Fujifilm Display Transparency Film incorporates a bright white diffuser coupled with a scratch resistance instant dry receiver layer to produce high impact backlit graphics with outstanding color fidelity.
